INTRODUCTION

The Pathfinders has employed its many years of experience in workforce assessments for corporate site-selection clients and civilian workforce assessments for the Department of Defense in locations that faced military base closures to produce this evaluation of the Anderson County area workforce. In site-selection projects, the question that most often drives the search is whether the candidate location has the workforce needed for a new or expanding operation; consequently, an analysis of an area's workforce became a key component of site searches conducted by The Pathfinders. Senior human resources executives from among corporate clients assisted in refining the methodology and report format.

While unemployed workers are a source considered in hiring, companies typically also staff a new operation with individuals who are working but who desire better jobs and who appear to possess the skills, education, and experience to qualify them for those better jobs. **By that definition**, those individuals can be considered "underemployed" and are identified as such in this report.

The Pathfinders was retained to quantify the extent to which both unemployment and underemployment exist in the Anderson County area. This report also represents the objective and professional view of The Pathfinders with regard to workforce quality, availability, costs, experience and skills that a new or expanding employer can expect in the Anderson County region.

The information presented in this report has been developed independently of the client, and the client has not influenced the findings.

KEY FINDINGS

- The Anderson County area, referred to in this report as the “labor shed”, has a household population of approximately 902,200; a civilian labor force of approximately 472,300; and a pool of approximately 56,000 unemployed persons who are actively seeking work.
- The results of this survey indicate that a new or expanding employer will be able to attract employees from an additional pool of about 120,500 underemployed workers.
- The desired pay rates of the underemployed workers are reasonable when compared to their existing pay rates. The median current pay rate of the underemployed workers is \$15.99 per hour, and their median desired pay rate is \$17.40 per hour.
- The median desired pay rate of the unemployed workers who are actively seeking work is \$12.31 per hour.
- Survey results indicate 6% of the underemployed and 7% of unemployed, actively seeking work individuals have less than a high school degree.
- In addition to the underemployed and those unemployed individuals who are actively seeking work, survey results indicate approximately 16,200 unemployed individuals in the labor shed who are not actively seeking work but would consider re-entering the workforce.
- In total, the Anderson County area has approximately 192,700 available workers for new or expanding businesses.

METHODOLOGY

The first step in assessing the workforce of the Anderson County area was to determine the boundaries of the area to be assessed. To accomplish this task, The Pathfinders applied the same reasoning that would be used during a site search for a corporate client considering the area as a potential location. The Anderson County survey area includes those locations from which workers might be drawn to a new employer and is referred to in this report as the “labor shed”. This labor shed consists of Anderson, Pickens, Greenville, Oconee and Abbeville Counties in South Carolina and Stephens, Franklin, Hart and Elbert Counties in Georgia.

Selected online resources were used in this project. Additionally, The Pathfinders conducted interviews with individuals throughout the Anderson County region. Those individuals were proportionally stratified across age, household income, and zip codes. The purpose of these surveys was to ascertain availability for work with a new employer; determine desired pay rates; and, collect information on such factors as age, education, commuting patterns, experience, and skills.

The data obtained as a result of those interviews enabled The Pathfinders to apply and employ a proprietary methodology that accurately determined the existence of underemployment and the quality and characteristics of both the underemployed and unemployed workers in the area. Further, The Pathfinders applied a proprietary process to the analysis of the data to correct for invalid responses. For example, those persons indicating they would take a new job but also indicating the desire for increased or decreased pay that is unreasonable are not included in the results.

It is important to note that companies making location decisions based upon these surveys have reported that when staffing actually began, the numbers reported by The Pathfinders proved to be accurate.

NUMBER OF AVAILABLE WORKERS

The Anderson County Area Labor Shed

The Anderson County area labor shed has a household population of approximately 902,200. The civilian labor force numbers approximately 472,300, and the labor shed contains approximately 56,000 unemployed people who are actively seeking work.

The results of this assessment determined that approximately 120,500 workers can be defined as underemployed: those individuals who are currently working but would take a better job if offered by a new or existing employer and who appear to possess the skills, education, and experience to qualify them to do so. Another 16,200 individuals would consider re-entering the workforce. Together with the unemployed, actively seeking work individuals, the Anderson County area has approximately 192,700 available workers for new or existing employers.

TOTAL AVAILABLE WORKERS

Number of underemployed workers	120,500
Number of unemployed, actively seeking work individuals	56,000
Number of unemployed individuals who are considering re-entering the workforce	16,200
Total Number of Workers Available for Employers*	192,700

* The reader is cautioned that, while the number of workers identified in the region, as well as their skills, experience, education, and costs, is accurate, all of those individuals may not be acceptable candidates for an employer. Their previous work records, stability, integrity, intelligence, appearance, and other factors are not considered in this report.

ASSESSMENT OF THE UNDEREMPLOYED WORKFORCE

The Anderson County Area Labor Shed

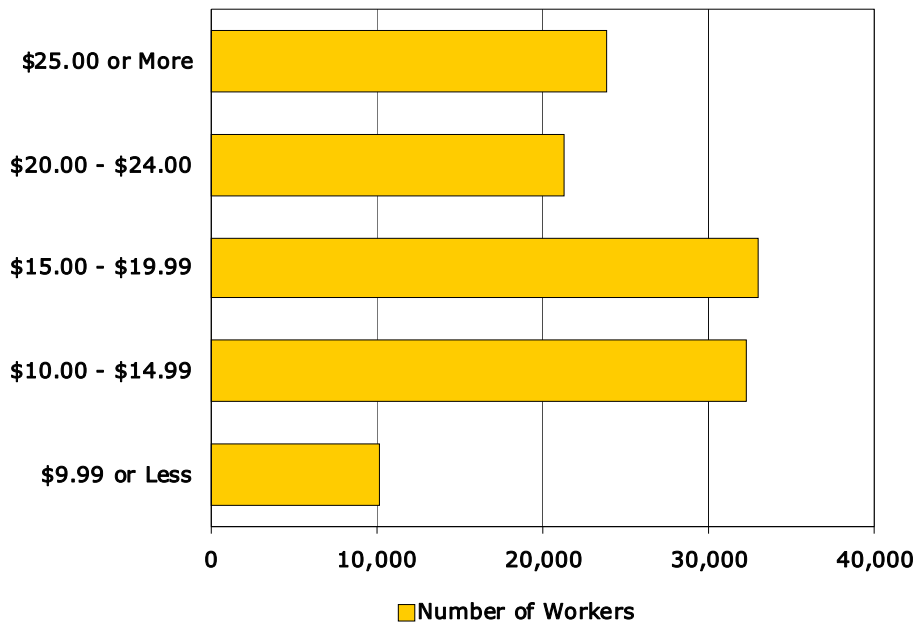

The 120,500 underemployed workers identified in this report might also be termed “upgraders”. They desire to move into an upgraded job and appear to possess the skills, education, and experience to enable them to do so. The following charts represent the desired pay rates of the underemployed individuals in the labor shed. Desired wages are shown by specific rates, range and percentiles.

NUMBER OF UNDEREMPLOYED WORKERS AVAILABLE AT SPECIFIC WAGE RATES PER HOUR (rounded)

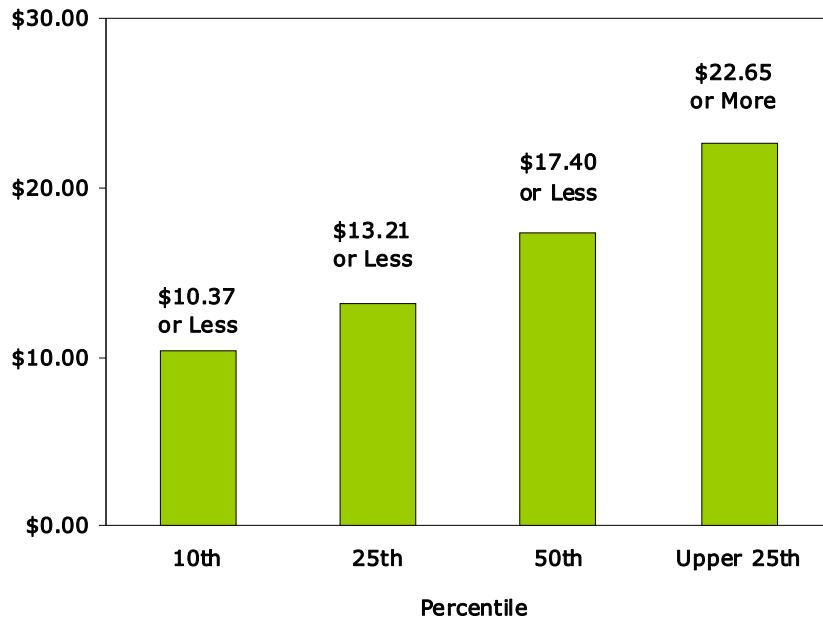

Desired Pay Rate	Number Available
\$7.99 or Less	3,400
\$8.00 - \$9.99	6,800
\$10.00 - \$11.99	8,500
\$12.00 - \$13.99	16,100
\$14.00 - \$15.99	17,900
\$16.00 - \$17.99	10,100
\$18.00 - \$19.99	12,600
\$20.00 - \$21.99	12,800
\$22.00 - \$23.99	5,100
\$24.00 - \$25.99	9,300
\$26.00 - \$27.99	1,700
\$28.00 - \$29.99	4,200
\$30.00 - \$31.99	2,600
\$32.00 or More	9,400

EXPERIENCE AND SKILLS – UNDEREMPLOYED WORKERS**120,500 Underemployed Workers**

Experience Category	Number of Workers (Rounded)	Percentage of Total	Average Years of Experience
Customer Service	79,500	66%	10
Office Operations	77,100	64%	12
Manufacturing/Assembly/Fabrication	71,100	59%	13
Warehouse/Distribution/Transportation	59,000	49%	9
Information Technology	38,600	32%	11
Maintenance/Installation/Repair	37,400	31%	12
Call Center	19,300	16%	7
Medical/Health Sciences	16,900	14%	9

The similarities between the experience and skills categories are designed to ensure inclusiveness considering the multitude of tasks and job titles present in most business, government and institutional operations. It should be noted that individuals polled normally have experience and/or skills in multiple categories.

Skills	Number of Workers (Rounded)	Percentage of Total
Office Operations	81,900	68%
Manufacturing/Assembly/Fabrication	72,300	60%
Warehouse/Materials Handling	67,500	56%
Information Technology	53,000	44%
Maintenance/Installation/Repair	44,600	37%
Technician/Quality Assurance	42,200	35%
Electronics/Engineering	25,300	21%
Medical/Health Sciences	19,300	16%

FACTORS AFFECTING JOB DESIRABILITY

120,500 Underemployed Workers

In an effort to identify those factors most important to the Anderson County area's underemployed workers relative to consideration of an employer's desirability, the surveyed individuals were asked to rate the following job factors on a scale of 1 to 5, with 5 being "extremely important" and 1 being "not important". The table below presents the ratings for each factor.

Factor	5 Extremely Important	4 Very Important	3 Important	2 Somewhat Important	1 Not Important
Financial Stability of the Company	66%	28%	4%	1%	1%
Retirement Benefits	65%	25%	7%	1%	2%
Insurance Benefits	64%	22%	11%	1%	2%
Salary	53%	37%	8%	1%	1%
Opportunity for Advancement	45%	34%	16%	2%	3%
Location	42%	28%	22%	5%	3%
Paid Training Programs	38%	34%	22%	4%	2%
Physical Working Environment	37%	41%	16%	2%	4%

As shown above, the underemployed workers in the Anderson County labor shed rated financial stability of the company and retirement benefits as the two factors most important to them in consideration of a job change. This does not mean that the remaining factors are unimportant to the underemployed workers.

ASSESSMENT OF THE UNEMPLOYED WORKFORCE

The Anderson County Area Labor Shed

This report documents two groups of unemployed individuals in the Anderson County area labor shed who would be available workers for a new or expanding business. The groups are classified as:

- Individuals who are actively seeking work
- Individuals who are considering re-entering the workforce

Published statistics document 56,000 unemployed workers in the labor shed who are actively seeking work. This number could possibly be higher due to individuals looking for work who are not on the roles of the state unemployment agencies. Survey results suggest that an additional 16,200 people, who are not currently employed or actively seeking work, would consider re-entering the workforce.

In total, the labor shed has approximately 72,200 unemployed individuals who would be considered potential workers for a new or expanding operation.

UNEMPLOYED INDIVIDUALS

Number of unemployed, actively seeking work individuals	56,000
Number of unemployed individuals who would considering re-entering the workforce	16,200

Total Number of Unemployed Individuals Available for Employers	72,200

The determinations for these two segments of the workforce have a larger statistical variance than that for the underemployed.

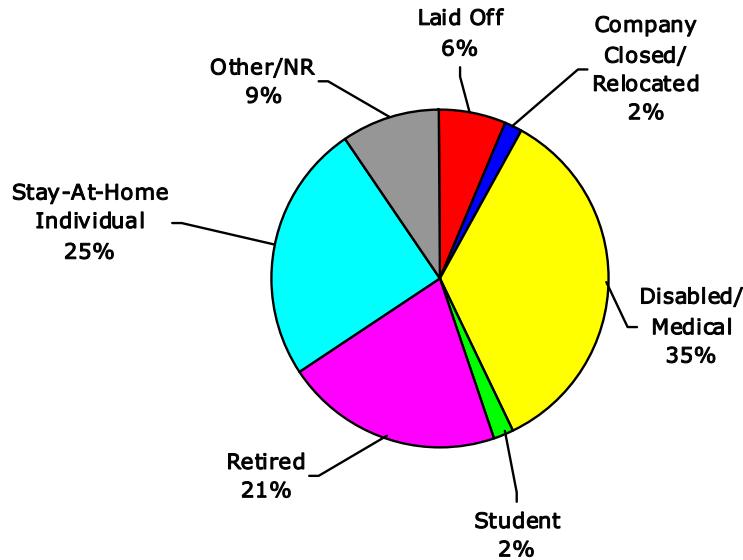

ASSESSMENT OF INDIVIDUALS WHO WOULD CONSIDER RE-ENTERING THE WORKFORCE

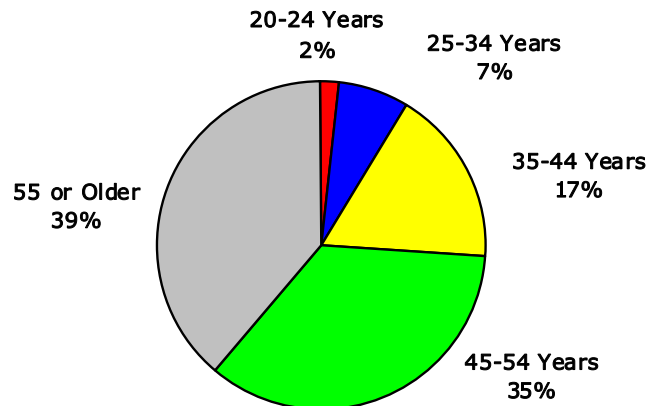

The Anderson County Area Labor Shed

The following charts provide information on that segment of unemployed individuals in the labor shed who would consider re-entering the workforce. As these data relate solely to those individuals in the labor shed who are unemployed, they will vary from data representative of the population and civilian labor force as a whole.

REASONS FOR UNEMPLOYMENT

**CHARACTERISTICS OF INDIVIDUALS WHO
WOULD CONSIDER RE-ENTERING THE WORKFORCE**

16,200 Potential Workers

- The median desired pay rate of the unemployed individuals who would consider re-entering the workforce is \$14.23 per hour.

- The largest category of most recent employment for the unemployed individuals who would consider re-entering the workforce is manufacturing.

- The two factors most important to the unemployed individuals who would consider re-entering the workforce relative to consideration of a potential employer are insurance benefits and financial stability of the company.

- 4% of the unemployed individuals who would consider re-entering the workforce would prefer a union job; 17% a non-union job; and, 79% have no preference.

**EXPERIENCE AND SKILLS – INDIVIDUALS WHO
WOULD CONSIDER RE-ENTERING THE WORKFORCE**

NATIONAL COMPARISONS OF UNDEREMPLOYED WORKFORCE

This section of the report provides comparisons of the pay rates, experience and skills of the labor shed’s underemployed workforce with the underemployed workforces in other areas previously surveyed by The Pathfinders. A prospect company considering the Anderson County region as a location will judge its workforce on a comparative basis. The comparative data for other locations used in the following charts reflect information accumulated over the past eighteen months. The Pathfinders maintains a continuing database of over 700 surveyed counties and communities and more than 30 million workers. In the charts, the Anderson County region is referred to as “labor shed”.

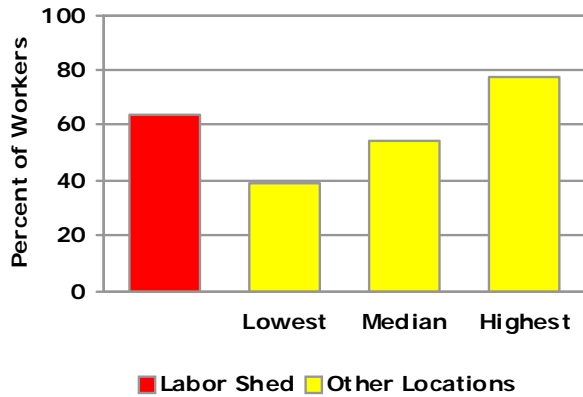

The chart below illustrates the median current and desired wages of the underemployed workers in the Anderson County labor shed as compared to those underemployed workers in all locations surveyed by The Pathfinders over the past eighteen months. As indicated, the median current pay of all surveyed, underemployed workers over the past eighteen months is \$14.16 per hour, and the median desired pay of these workers is \$15.46 per hour. As shown, survey results indicate that the Anderson County region’s underemployed workers have higher pay rates in both median current pay and desired pay than other locations surveyed.

EMPLOYERS' VIEWS OF THE THE ANDERSON COUNTY REGION TOTAL WORKFORCE

In developing a profile of existing workers in the Anderson County region, The Pathfinders considered such factors as labor availability, productivity, unionization, attitudes, costs, and education. The analysis was based upon interviews conducted with senior management and human resources professionals from companies located in the region.

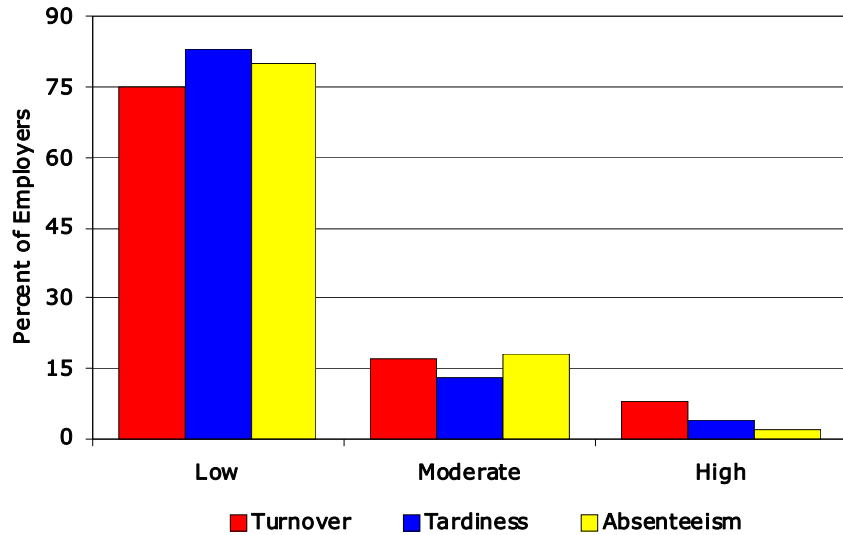

As determined from the employer interviews, the tables below reflect the top two methods used to recruit hourly and salaried workers in the Anderson County region and the percent of employers utilizing each method. Employers may use multiple recruitment methods.

Recruiting Methods – Hourly Workers	% of Employers
Staffing/Temp Service	57%
State Agency	22%
Recruiting Methods – Salaried Workers	% of Employers
Internet	42%
Newspaper Ads	37%

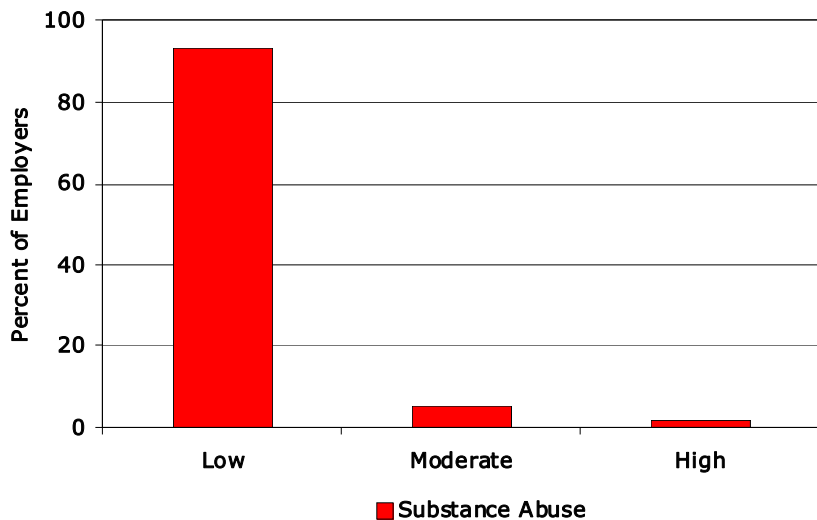

72% of the employers interviewed stated their companies had operations in other regions of the United States. Of these employers, those familiar with the workforces in those other locations reported that their Anderson County area operations were comparable to or better than the other regions in terms of profitability and production.

Based upon the experience of The Pathfinders in evaluating labor forces in numerous locations, a definite correlation between productivity, absenteeism, tardiness, turnover, and substance abuse appears to exist. That correlation goes beyond the fact that an absent worker is obviously unproductive. Rather, those factors are indicative of an employee’s attitude toward the job. The chart below shows the percent of employers’ ratings for turnover, tardiness and absenteeism.

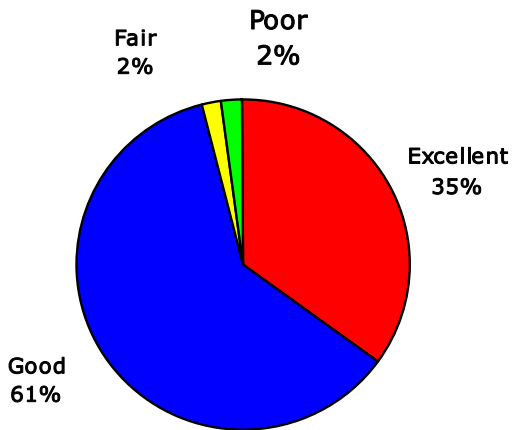

Additionally, in the Anderson County region, 92% of the employers interviewed stated their companies tested for substance abuse, primarily pre-employment. Substance abuse within the workforce, as reported by the participating employers, is shown in the chart below.

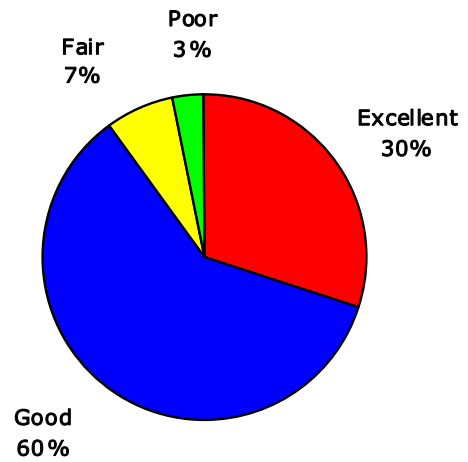

In consideration of all factors, 96% of the employers in the Anderson County region rated the productivity of the workforce as "Good" to "Excellent". Worker attitudes received high marks from 88% of the employers.

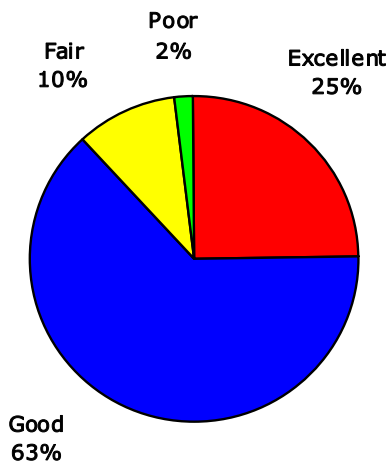

WORKER PRODUCTIVITY

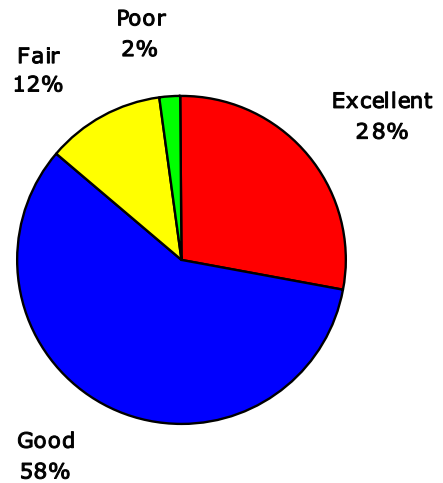

WORKER RELIABILITY

WORKER ATTITUDES

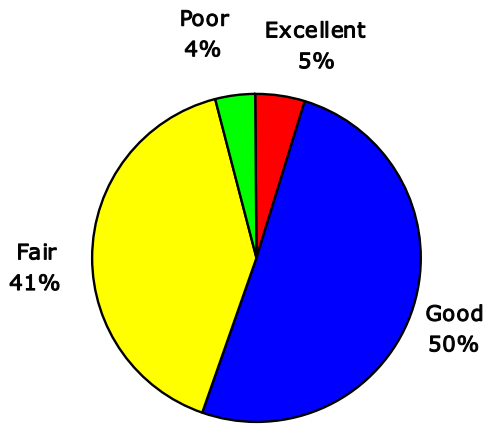

TEAMWORK SKILLS

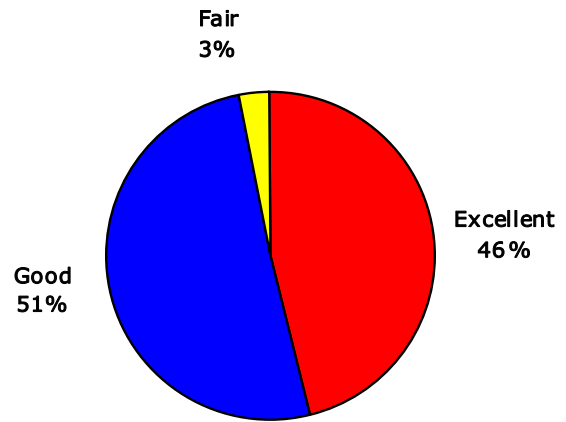

The educational competencies of employees are additional factors used to evaluate a region’s labor force. In the Anderson County region, 55% of the employers interviewed rated the local public schools as “Excellent” or “Good”, and 97% of the employers rated the local community colleges and technical schools as “Excellent” or “Good”. Ratings for basic skills and other factors are also shown.

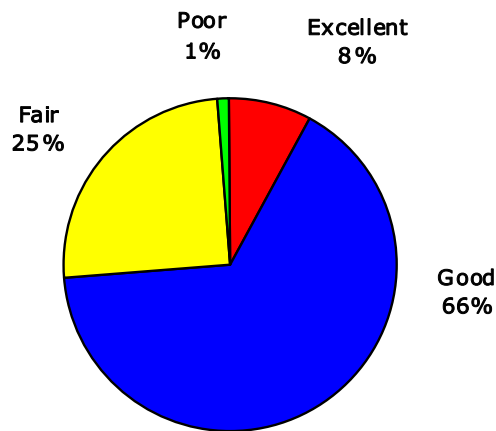

LOCAL PUBLIC SCHOOLS

LOCAL COMMUNITY COLLEGES AND TECH SCHOOLS

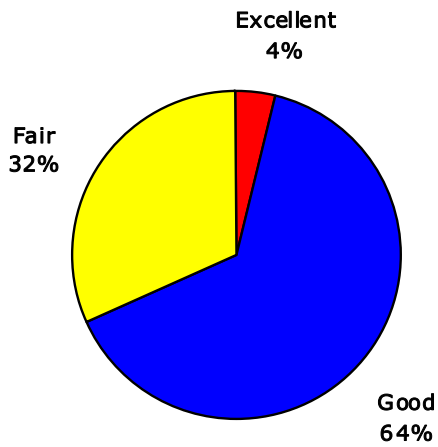

READING SKILLS

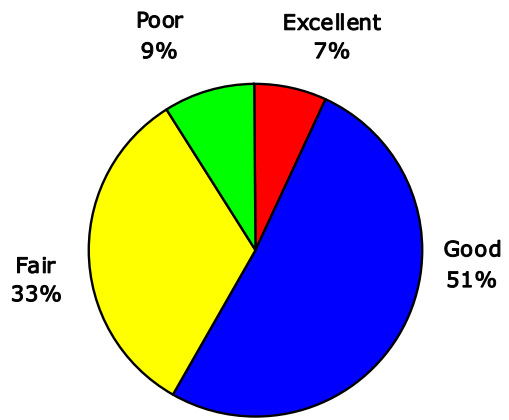

EMPLOYERS' RATINGS The Anderson County Region Labor Shed

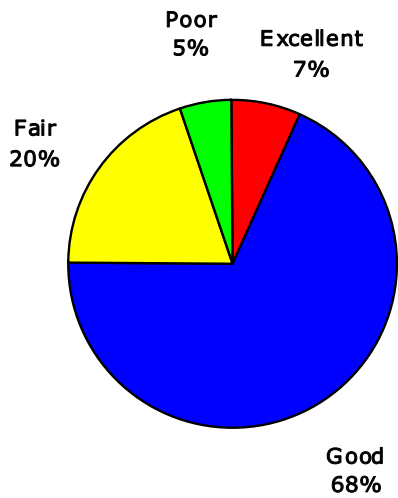

WRITING SKILLS

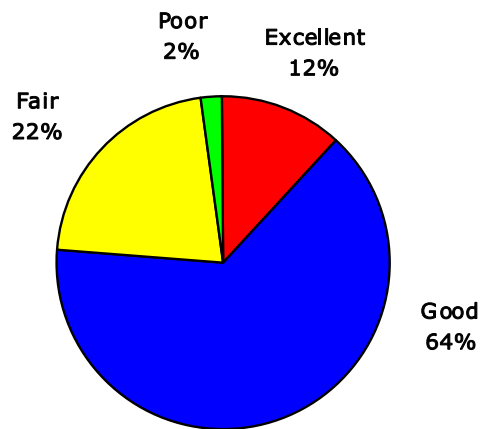

MATH SKILLS

JOB READINESS SKILLS

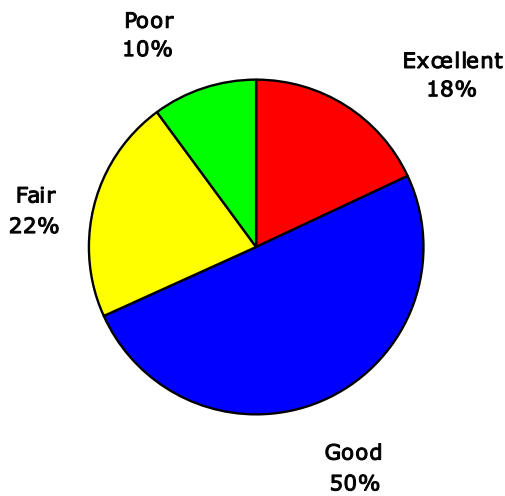

ENTRY LEVEL SKILLS

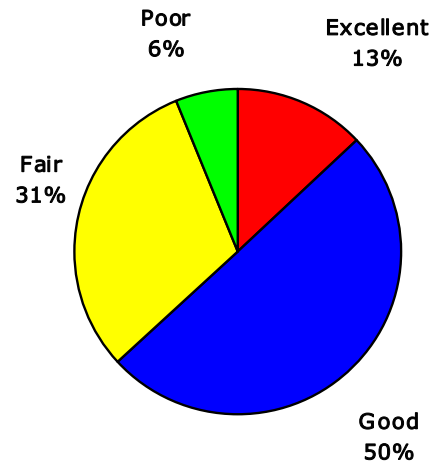

A common employer complaint relates to the shortage of skilled and technical workers. These workers are in great demand and difficult to find in the vast majority of locations. Of the companies in the region interviewed, 68% considered skilled worker availability to be "Excellent" or "Good", while 22% considered it to be "Fair". The availability of technical workers in the region was rated "Excellent" or "Good" by 63% of the interviewed companies and "Fair" by 31%. The ratings for availability of unskilled and professional workers are also illustrated in the pie charts below.
