LIFE SCIENCES

Pioneering the future of human health.

Upstate South Carolina connects two of the largest cities in the Southeastern United States: Charlotte and Atlanta. Home to 26+ institutions of higher learning and within 150 miles of leading bioscience research universities such as Duke, University of North Carolina and Emory, the Upstate is a magnet for life science companies.

Here, global leaders like **Lonza** manufacture pharmaceutical products, **Pall Corporation** is supporting rapid vaccine production through single-use technology, and medical technology companies like **Chartspan** and **Sync.MD** are revolutionizing data management.

Life science is the fastest-growing segment of South Carolina's innovation economy, with industry leaders announcing more than **\$511 million in capital investment and 3,607 jobs** in the Upstate since 2017.

FUELING THE CLUSTER

Innovation and R&D

Upstate South Carolina companies are shaping the future of human health, from **genomic breakthroughs at Greenwood Genetic Center** to **drug efficacy predictions by Kiyatec**. Here, companies find industry and research partnerships, and advanced facilities to help them explore, develop and scale new techniques, procedures and applications.

STARTUP SUCCESS: Zylö Therapeutics

Topical drug delivery systems that can provide sustained release are a transformative technology with a world of applications, and Upstate-headquartered Zylö Therapeutics is leading the way.

ARTHREX: Workforce Partnerships

When global orthopedic medical device pioneer Arthrex announced its \$40 million manufacturing facility in the Upstate and plans to create 1,000 new jobs, Upstate workforce development partners applied their formula for launch.

TECHNICAL TRAINING

- **readySC** provides hiring & training support
- **Tri-County Technical College** offers degree & non-degree workforce training

Experiential Learning:

- **Machine Tool Technology** program trains students on equipment used in Arthrex's production process
- **Youth Apprenticeship** program builds talent pipeline

UNIVERSITY SUPPORT

- Collaborative research partnership with **Clemson University**
- Partnering on curriculum tailored to surgical device innovation

Certificate Programs:

- Programs that equip students from any major to work in the orthopedic industry:
- **Sales Innovation** Certificate
- **Orthopedic Medical Device Product Specialist** Certificate
