“

The area is a great cultural center with a large diversity of local talent. We look forward to supporting our customers and working with the local talent to grow and expand our organization.”

Michael Bouranis

*President & CEO
valantic*

The Germany-based software developer and supplier management consultant for the automotive industry recently announced Upstate operations and creation of at least 15 jobs.

LET US SUPPORT

your launch of operations in the U.S.

Take advantage of the services and local expertise our team offers to companies considering U.S. market entry:

- Connections to local and state government agencies offering support programs for new businesses and startups
- Referrals to professional services and advisory firms for efficient U.S. startup
- Personal introductions to potential business prospects within the region
- Advice on how to leverage networks in the market to meet with peers, decision-makers and influencers
- Identification of low-cost workspace and real estate options
- Ongoing community support

BNNano

“

We fell in love with the Upstate as soon as we set foot in the region. Everyone we met was so welcoming, helpful, and eager to help us develop and grow. The fact that the region was growing so quickly, major businesses had their U.S. operations there, along with the ease for us coming in from Scotland made it the ideal place to build our U.S. business from.”

Jim Rae

CEO, docs24

The Scotland-based company provides a proprietary platform for online marketing, business content and brand management. It established its North American sales and customer service presence in 2019.

MORE THAN A PLACE TO LAND

Locations with benefits.

When it comes to a physical presence, the Upstate boasts wide-ranging opportunities, from co-working spaces to offices with room for warehousing to office space within specialty clusters. Our team can provide you an array of options based on your specific needs. Take a peek at a couple of options attractive to international companies launching in the Upstate.

SPARK CENTER SC: IGNITING INDUSTRY SUCCESS

Located along a growing industrial corridor, the Spartanburg Community College Spark Center SC has supported companies from 12 different countries in launching production operations in the U.S. In addition to office workspaces, Spark Center SC offers industrial space for light manufacturing and warehousing. Additional services provided include telephone, internet, copiers, and limited administrative services.

ANDERSON COUNTY INCUBATOR AT 1428

The Anderson County Incubator at 1428 presents a range of options for a soft landing, with 15,000+ SF of office space and 180,000 SF for assembly and light manufacturing capabilities. Tenants like Sync.MD enjoy secure access to conference rooms, interview spaces and a shared campus with SC Works Recruitment Center and TriCounty Technical College.

“

We feel that if we are in the Upstate, we have a lot of potential customers and prospects in a three-hour drive range. More than in the rest of America, for our technology and our use cases.”
